WILLIAM MEADOWS

Type: ROUTINE INSPECTION
Date: Feb-24-2014

This was a focused inspection on 2-24-2014 regarding the Jackal found dead in his enclosure. The jackals body was immediately taken to the attending veterinarian for necropsy. Necropsy results pending.

Baby lemurs have been moved from the back room and placed in the welcome center which has many floor to ceiling windows. A screen was placed in front of their enclosure serving as a public barrier. Their enclosure is clean and enrichment toys were present.

Primate enclosures were monitored for ambient temperature and all met the minimum requirement.

Inspection and exit interview conducted with facility representative.
